

# ENTITY RELATIONSHIP DIAGRAM

## UP2077835

### Assumptions:

- A recipe can have many ingredients and an ingredient can be included in many recipes.
- A method and its description can be assigned to only one recipe. Some steps might be the same, but overall it will be specific to a recipe.
- A recipe can only have one skill and a skill can be assigned to many recipes.
- All nutrition attributes under the recipe entity are measured in grams.
- Preparation and cooking time are in minutes.
